

My dear Mr Danthony and the trustees

Thank you very much for offering financial support for the 10th standard hostel running facilities. You have eased my worries and the parents. It is kind of you and the trustees to assist our children in need. WE are going to start the hostel next month onwards and will send you their photographs.

The motor, pipes with wires, water tank is bought ready to be used but the local plumber who made promise to fix it not come and he is very busy with other things. It will be fixed to be used soon and will send you pictures and the costs so far.

Tomorrow 100 poor people are coming to receive food that we have decided to distribute for their urgent needs. The cost of food is gone up double and the people who are sick and extended families are not able to spend money to eat nutritious food hence for their survival they eat mostly rice with little spiced curry without adequate other energy. We packed with each bag 20kg rice, 2kg lentils, 2 litre oil, 2kg beans, 1kg soya, other grains, and spices for a month. This way we could help them to have proper regular food. The shops put all the items in a bundle and send them to us for distribution. The family and widows poor sick are given token and they come with the token to receive the bag. This helps me not to have a lot of work running around. I will produce the photos of them also when it is ready. There are 200 families identified and they will receive help.

that is all for now and will send you more details. All is well. Thank God.

best regards to one and all who help our needs.

Maria
